From: G. E. Inskeep

Subject: Menthol-Release Compounds Helf. 582-783 PM 602

Enclosed is a rough draft of a patent application on your invention. Please look it over carefully for accuracy and completeness, and note particularly whether the claims appear to cover what you believe to be the heart of your invention and its most important embodiments. Possibly current knowledge will require updating of the specification, and blanks may have been left for you to fill in. Please put your corrections on separate paper and return to me with the application.
